KNOWS WOMAN BACK OF ELWELL'S DEATH

Blue-Eyed Blonde, 36 Years Old, Confessed Accomplice Says

TELLS CRIME DETAILS

Police of Buffalo Are Dubious—Smoked Before Murder—Harris a Native of Connecticut.

Buffalo, April 8.—Nonchalantly puffing at a cigarette, apparently unconscious that the words which flowed from his lips probably were paving the way to a quick death in the electric chair in Sing Sing, Roy Harris, 23 years old, self-confessed accomplice in the murder last June of Joseph B. Elwell, whist expert and turfman, in New York, sat last night in a small room in the Niagara Street Police Station and told his story to a detective.

While there are several apparent discrepancies in his story, it is probable that Harris and his wife, who is also being detained, will be returned to New York early tomorrow.

After reciting many of the preliminary details concerning his meeting with Bill Dunkin, his accomplice, in Joe Thum's bowling alley, near Herald Square, three or four months before the murder, and the consequent meeting with the mysterious English chauffeur called Jerry in front of the Mills Hotel June 9, the murder and other details of the crime, Harris dramatically exclaimed:

"I never intended to kill the man. All I wanted was the money. I was out of work and needed funds. I thought that it would be an easy way to get the money. I wanted to back out after I thought of the seriousness of the thing, Dunkin was determined. Just before we reached the Elwell house I wanted to give back the money, but Dunkin said that there would be two murders instead of one."

"Do you think that you could recognize the woman who paid you to kill Elwell?" Harris was asked.

"Sure I could. She has blonde hair, blue eyes and was about 35 years old. I saw her picture in an afternoon New York paper after the murder. She was one of Elwell's supposed friends. I believe the picture showed her in a dressing gown of some sort of flimsy material. I believe I could recognize her and call her name, but I won't do it now."

Harris said that after the murder he and Dunkin rushed from the house. "Dunkin told me to walk like h—" said Harris. "We walked east through Seventieth street to Central Park West, wending our way to Central Park West and Seventieth street, where Jerry and Mrs Fairchild were to meet us. They had gone.

"I saw Dunkin in front of the Marie Antoinette on Monday night after the murder. It was then that we were to get the rest of the money. You know, all I got out of the murder up to that time was $450 We were each to get $2,500. We waited there for an hour, but Jerry did not show up. Dunkin pretended to be pretty sore, but as I look back on it now, he was only stalling."

Harris said that he hung around New York for two months after the murder.

"While waiting for Elwell to come home," said Harris, "Dunkin and I smoked cigarettes. I smoked two and placed the butts on a table. There was a bay window and two smller windows off the reception room. The hall was about nine feet wide."

Harris was asked if he saw a telephone. He replied that he did not, although he said that he saw a table a large chair and davenport or settee against the wall near the door.

"I hugged the wall and stair railing," said Harris. "Then I heard Elwell enter and go upstairs. By the looks of his trousers and his shoes he had a full dress suit on. In about 15 minutes the doorbell rang. Elwell came down in a bath robe and pajamas. He answered the phone, saying, 'All right, I'll be there.' He then went in the reception room. Fifteen minutes

M. E. South Conference

Seek Thirty Five Million Dollars—Bishop Hendrix Presides

Roanoke, Va. April 8.—The statement before the Baltimore conference, of the Methodist Episcopal Church, South, on the opening day of the one hundred and thirty-seventh annual session, which probably attracted the greatest attention from those present was the declaration of Dr. Henry N. Snyder, president of Wofford College, at Spartanburg, S. C., and assistant director general of the Christian education movement of the church, when he said, in unqualified words, that the entire South belongs to Methodists and Baptists.

Other denominations, he said may be accomplishing something in this territory, but the preponderance of number of Methodists, with their 2,250,000 members, and Baptists with their 4,000,000 members, justifies the statement that what the South of the future is to be depends upon Methodists and Baptists.

Dr. Snyder was speaking in the interest of the Christian Education Movement of the church, the financial goal of which is to secure $35,000,000 with which to equip and endow the educational institutions of the church.

Late last night the conference adopted a recommendation of the Board of Education to accept $680,000 as the conference quota in Christian education movement.

Following the organization of the conference and the transaction of a few items of business, the consideration of this movement was made the order of the day for the remainder of the morning session and for the afternoon and evening sessions.

Bishop Eugene Russell Hendrix, of Kansas City, senior bishop of the church, is presiding over the conference, and Bishop U. V. W. Darkington, of Huntington, W. Va., is present to assist him. Rev. Harry M. Canter, of Harrisonburg, Va., was re-elected secretary.

The characters of the preachers sustaining the superannuate and supernumerary relation were passed and the report of the board of directors of the Baltimore Southern Methodist, the conference organ, was submitted, this paper being highly commended.

Dr. R. S. Blackwell, S. C. Hatcher and F. L. Day, of Randolph-Macon College, Ashland, are attending the conference.

Acquitted On Gun Case

Jumbo Bryant Obtains Freedom—Other Cases In Police Court

During the past three consecutive mornings, John, better known as "Jumbo" Bryant, colored, has been in the police court. Each time there was a trifling charge urged against him. The third time, this morning Llewellyn Lane, colored, appeared as complainant and testified that becoming engaged in argument while in a pool room in the southwestern section of the city last night, Bryant whipped out a pistol and acted in a menacing manner toward him. Bryant, however, told a different story denying he had a pistol and the court hearing all sides acquitted Bryant. Bryant was arrested by Chief Goods, Sergt. Wilkinson and Policeman Lunsford.

William Walker, colored a stranger around these parts, was charged on the blotter with the larceny of a wagon. Walker emphatically denied the charge. "Thirty days" said the court. He was taken in custody by Chief Goods, Sergt. Wilkinson.

A colored man giving the name of George Donald was fined $10 for disorderly conduct and fighting. He was arrested by Policemen Rawlett and Welker.

R.R. EMPLOYES PLAN TO END DISPUTES

Submit Proposal to Harding Suggesting Parley on Question

500,000 BEHIND MOVE

Twelve Points Termed "Labor's Self-Evident Rights" Are Included—Call For Eight Hour Day.

Chicago, April 8.—Five railroad labor unions, with 500,000 members, last night submitted to President Hardings labor's plan for ending industrial disputes between the roads and their workers, proposing that the President call a conference of representatives of both sides, at which new rules governing working conditions would be worked out to take the place of national agreements, now in dispute before the Railroad Labor Board.

The proposal was contained in a statement by representatives of the five mechanical unions and was sent to the President by B. M. Jewell, president of the railway employes department of the American Federation of Labor.

It proposed that all wage disputes be held in abeyance pending the conference, holding that the matter of wages could be quickly adjusted to the satisfaction of all as soon as the question of rules had been settled.

The telegram was sent in response to a request from President Harding at the recent conference he held with Mr. Jewell that labor submit its plan for ending the railroad industrial troubles. It included 12 points, which were termed "labor's self-evident and inalienable rights," which, it said, would have to be settled at the proposed conference, and specified that the national agreements should not be discounted in any way pending the outcome of the proposed conference. It was suggested that the conference be held under the jurisdiction of the Railroad Labor Board, which would have full authority over it.

Labor's 12 points:

"1 The right to organize and negotiate collectively through representatives of their own choosing.

"2. The protection of employes against discrimination because of membership in trade unions or because of legitimate trade union activities.

"3. The right of the majority in each craft on each railroad to determine what organization shall represent them; this organization to have the right to negotiate an agreement which shall apply to all workers in the craft.

"4. The right of the majority of each craft on each railroad to select a committee or representative who shall handle all grievances which may arise affecting all employes of the craft in accordance with the provisions of the agreement.

"5. Eight hours as the recognized measure of the standard work day.

"6. Payment for time worked in excess of the regular eight hours at proper overtime rates.

"7. The beginning and ending of working shifts to be so arranged as to permit of living arrangements by employes and their families.

"8. Clear and concise definition in the case of each craft of the work to be performed by mechanics and helpers.

"9. The establishment of apprenticeship requirements so as to develop a sufficient number of competent mechanics.

"10. Applicants for employment as mechanics to show that they have served an apprenticeship of four years or performed mechanic's work for a similar period, and not to be denied employment when their services are needed for any reason other than their inability to perform the work for which they are making application.

"11. Craft point seniority to be recognized.

"12. The establishment of reasonable safeguards for the protection of health and safety of employes."

The statement in the telegram was signed by J. F. Anderson, vice-president of the International Association of Machinists; Edward Tegtmeyer, vice-president International Brotherhood of Blacksmiths, Drop Forgers and Helpers of America; William Atkinson, assistant president International Brotherhood of Boilermakers, Iron Ship Builders and Helpers of America; J. W. Burns, representing Amalgamated Metal Workers' International Alliance; Edward J. Evans, representing International Brotherhood of Electrical Workers, Martin F. Ryan, general president Brotherhood Railway Carmen of America.

The statement said that the unions did not contend for continuation of any rule which was not just and that it would be easy to decide at the proposed conference what rules could be made national and what matters would have to be settled locally.

CLIFTON FORGE GIRL MISSING SINCE MONDAY

Harrisonburg, Va., April 8.—Relatives in Harrisonburg of Miss Elizabeth Rice, 15 year old Clifton Forge girl, who has not been seen since last Monday morning when she left her class in high school, are making an earnest inquiry in this part of the Valley in a neffort to learn her whereabouts.

Miss Rice, according to reports from Clifton Forge, was seen by a conductor on a Chesapeake and Ohio train Monday morning. He declares she left his train at Staunton.

The reason for the disappearance of the girl is a mystery to her parents, who say she had no love affairs, so far as they knew. It is generally believed that she started out to visit, possibly in Harrisonburg, where she has two uncles and aunts, and where she formerly went to school at the Eastern Mennonite school here and has gotten lost.

Police in all towns of the upper part of the Shenandoah Valley have been notified to be on the watch for her.

SOUTHERN TO BUILD BRIDGE OVER BLACKWATER CREEK

Lynchburg, Va. April 8.—The Southern Railway is assemblying material here for the construction of a re enforced concrete bridge over Blackwater Creek, near the Union passenger station.

The work is to provide a bridge sufficiently strong to permit the passage of the heaviest type of locomotives over the old lines through this city.

And it is now, on account of this bridge, the heavy type engines cannot go over the downtown line, and heavy trains through that way are handled by smaller engines in double header.

England Headed For Triple Strike, Despite Premier

London, April 8.—The railway men and transport workers this evening decided to strike in sympathy with the miners Tuesday morning, failing the reopening of negotiations for a settlement of the coal strike.

YIELDS IN EFFORT TO AVERT STRIKE

Premier Will Not Insist Pumpers Go Back to Mines

MINERS MAY BALK

Railway Men and Transport Workers Pledge Support to Miners—Strikers Use Bombs.

London, April 8.—Premier Lloyd George appeared dramatically in the House of Commons just before midnight and announced that, in an effort to avert the nation wide strike that impends, the Government would yield a point to the coal miners. He said that the Cabinet was willing to drop its insistence that safety men (pumpers) be reinstated at the mines as a preliminary to negotiations for a settlement and was now willing to discuss this question first before the matter of wages is considered.

Whether this concession, meeting as it does the stipulation made by the miners that conferences must be entered without any limitations, is adequate to forestall the walkout of nearly four million railway men and transport workers, who voted yesterday to quit in sympathy with the miners, is not clear this morning. The suggestion was heard in Parliamentary circles that after yesterday's fiasco the miners would be unwilling to parley now.

Minister of Labor McNamara, immediately after the Premier's announcement, got in touch with the leaders of the transport workers and arranged to meet them later today to consider the turn in the situation.

A strike of all members of labor's triple alliance seemed a foregone conclusion when Parliament assembled after dinner last evening. Both railway men and transport workers had decided definitely to throw in their lot with the striking miners and only the details of the strike remained to be fixed at a conference this morning.

The Premier had announced in the afternoon the collapse of the negotiations he had been carrying on with the miners. He said that other questions besides wages had become fundamentally involved, indicating a renewal of the demand by the miners for nationalization of the pits.

While the Premier was speaking, the miners issued an appeal to the country to stand firm. James Henry Thomas, president of the railway men, also issued a statement explaining that the allied unions felt that the conditions offered, if accepted by the miners, would be only the beginning of a general attack on working class conditions and an attempt to bring back pre war standards.

A strike tieing up the whole country is almost inevitably the next step, unless the miners accept the Premier's offer of further negotiations. If the strike comes it will tie up all railroads, subways, trolleys, buses and other means of transport and the country will face an industrial crisis the like of which it has never known.

Following the conference with the miners, Lloyd George laid the situation before the Cabinet in a conference lasting an hour and then the Premier went to the House of Commons and told the members that the miners would not agree to reinstate the safety men and that although they expressed readiness to meet the owners at any time, they continued to demand a national wage system and national pool of profits.

"The Government relying on the great mass of people, must take every means in its power to meet the situation which has arisen," said the Premier. This was understood to mean that volunteers would be called for to keep up local transportation service and to distribute essential food supplies.

The union of railroad firemen and engineers, which with its 35,000 members is not affiliated with the National Union of Railwaymen and which Wednesday seemed likely to stay at work, also voted yesterday to strike in sympathy with the mi-

The Strike in Britain.

The British coal strike has grown inch by inch until from a local affair involving one part of England and one particular industry it has developed into a great catastrophe that threatens to engulf and paralyze all commerce and industry throughout the islands. Were it not for the level-headed equilibrium of the British, the world might indeed take Lloyd George seriously when he said yesterday that Great Britain was menaced by the same fate as Russia. The possibility that all railway and steel workers may join the coal strikers, effecting one gigantic strike of 5,000,000 workers, is in itself a sword of Damoeles suspended over the head of government and people alike which the present arbitrary attitude of all parties to the quarrel is doing nothing to remove. The further possibility that the strike may be turned from an industrial into a political weapon is of course a pistol loaded and pointed at the head of the Lloyd George government.

The significant thing about it all, and nothing involving industrial paralysis and political maelstrom in Great Britain can fail to have its significance for us is that a great conflagration can grow from some might small sparks. Originally dispute over wages and labor conditions in one little coal mine, behold now how it has spread like a prairie fire. There should be some means in every civilized country to stop industrial disputes by arbitration before they spread. It is just as ridiculous to wait until an industrial disorder becomes nation wide to deal with it as it would be to wait until a house catches fire all over to call the fire department.

Posing at the White House.

The country is learning to expect the original, the forceful and the unexpected from Charles G. Dawes of Chicago, the former A. E. F. long ago startled Congressman investigating the conduct of the war almost out of their wits by the simple device of a few eloquent and picturesque oaths.

General Dawes yesterday afforded us another treat. He went to the White House with members of a committee of which he was chairman to report to the President the present situation in this country with reference to disabled veterans of the World War. A photographer was just about to arrange the members of the committee for a picture with President Harding. That would have been the conventional thing, the thing which every group that has been tracking the White House floors for the past month has been doing. But Charlie Dawes would have none of it. "No sir," he interjected, "This committee does not pose. It is one committee that has come to Washington without ranging itself along side of the President and posing for a picture. We came here to work. Our work is done. We are through." And there was no picture.

If General Dawes succeeded, as he is believed to have done, in putting a crimp into muckraking investigations of the war, it may be that he has also succeeded in dislocating the firmly entrenched but ridiculous custom of "posing" on the White House lawn.

YIELDS IN EFFORT TO AVERT STRIKE

(Continued from Page One)

ners, and the Government therefore cannot count on support from this quarter. If transport breaks down the Government is expected to requisition trains and buses and use volunteers to fill out crews.

The rioting in the Scotland coal fields took on a more serious aspect yesterday when hand grenades were thrown in some of the pits in an effort to frighten the strikebreakers. Isolated cases of looting and wrecking also were reported and the Scotch miners generally are exhibiting an ugly temper. The Welch extremists are apparently on the verge of outbreak, but in other parts of the country calm is reported.

Many large iron works have closed their doors because of the lack of coal, adding greatly to the number of unemployed. Steam trawlers have been put on 50 per cent rations. The prospect of America's capturing the cream of Great Britain's export coal trade is seriously alarming merchants here, who, with the end of the first week of idleness, see no hope of an early resumption.

SPRING REDUCTION IN PRICES ON COAL:

We are today reducing our prices on both Anthracite and Bituminous coal and will be glad to enter orders for Spring delivery.

The mines claim their present prices are as low as their cost of production will permit and that Anthracite coal will be higher by Fall.

The preparation and the quality of the coal we are now receiving is better than it has been for several years.

The freight is still high but there seems very little likelihood of a reduction shortly.

We have been able to reduce our cost of handling and our trade gets the benefit of this saving.

It is not possible for us to know whether this is the best time to buy your winters coal, but we are sure that a reasonable tonnage will have to be mined, transported and delivered through the Spring and Summer months to avoid a coal shortage and high prices next Fall and Winter.

BETTER THAN CALOMEL
Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaint with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they eliminate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "blue" and "heavy." Note how they clear muddled brain and perk up the appetite. Second 30c a box.

You'll find Grape-Nuts
a delicious and unusual blend of wheat and malted barley, which supplies needed nourishment for sturdy muscles and active brains

NATIONAL PROSPERITY WEEK APRIL 4--11

ELECTRIC CHAIR FOR BURGLARS

Richmond, Va., April 8.—In an effort to check the epidemic of burglaries and robberies in Richmond, Commonwealth Attorney George E. Wise Wednesday announced that he would ask all juries in Hustings' court to bring in the death penalty in such cases wherever it is possible. Mr. Wise was of the opinion that burglars had fallen into the idea that they could get off with penitentiary sentences, and that they are becoming more daring because of this. He expressed himself as being in favor of enforcing the law to the letter in order to safeguard the lives and property of Richmond people.

Urged Murder of Einstein
Pays $16 Fine in Berlin Court.

Berlin, April 8.—Charged with attempting to incite the murder of Professor Albert Einstein, who is now in America on a lecture tour, Rudolph Leibus, an anti-Semitic leader, was assessed a fine of $16 by a Berlin Judge.

Leibus recently offered a reward for the murder of Einstein, Professor Foerster and Maximilian Harden, saying that it was a patriotic duty to shoot these leaders of pacifist sentiment.

Forty Arrests Halt Bar Trade in Gotham Resorts

New York, April 8.—More than forty arrests and two big seizures of wine and whisky by the police during the first twenty-four hours of State prohibition enforcement threw a hair-raising scare into the boot-legging talent, especially in the gay Broadway resorts, and practically halted the open trade in liquor by the drink. By putting the responsibility for enforcement directly upon the shoulders of every policeman of the 11,000 under his command, Police Commissioner Enright obtained efficient enforcement during the first experiment, at least.

Hash On Sing Sing Menu, Brindell Eats Ham An'

Ossining, N. Y., April 8.—Hash was on the dinner menu last night at Sing Sing prison, but Robert P. Brindell, high salaried labor leader who began a five year sentence Monday for extortion, ate ham and eggs. Charges for violation of the prison rules are facing him, and the waiter, another convict from whom Brindell said he obtained the delicacy, was deprived of his usual privileges and locked in a cell. Officials said the waiter probably would be sent to Clinton prison.

Mellon to Set Forth Soon Way to Raising Four Billion

Washington, April 8.—Suggestions as to means of raising the four billion dollars of revenue necessary for the conduct of the national government during the next fiscal year will be sent to congress early next week, Secretary Mellon said today. Discussion of sources which may be tapped by the new tax program will be completed probably Saturday by the treasury secretary and his staff of advisers.

HOUSTON JAIL MOBBER IS FINED AND JAILED

Danville, Va., April 8.—John H. Draper, indicted for taking part in the storming of Halifax County jail, with others, was convicted of an assault by a jury at Houston yesterday evening and fined $500 and sentenced to serve twelve months in jail. The jury was out less than an hour.

This is the first time in this section of the State that an attempted lynching has been so far discountenanced as to punish the offense with imprisonment. Motion to set aside the verdict will be argued before Judge W. R. Barksdale on Saturday morning. The other fourteen white men indicted will be tried at the May term of court.

KNOWS WOMAN BACK OF ELWELL'S DEATH

(Continued from page one)

later I heard the shot. I did not go into the room and did not see Elwell We made no actual plans as how we were to get Elwell. We were to get him and that'es all there was to it."

Jerry, the chauffeur, is described by Harris as weighing about 150 pounds and about five feet seven inches tall. He talks like a cockney, but looks like an Italian, said Harris.

He said he was born in Bridgeport, Conn., and that he had lived there for 16 years. He said that his father and mother were dead and that he came to New York at the age of 16.

Mrs. Harris was questioned at length by Guy B. Moore, district attorney, today. Mr. Moore at the request of former Governor Charles B. Whitman, also subjected Harris to a gruelling examination to test the authentically of his sensational confession. Dr. James W. Putnam, an alienist, was called to examine Harris.

New York, April 8.—Officials investigating the confession of Roy Harris to Buffalo police that he and a companion named William Donkin murdered Joseph B. Elwell, wealthy clubman and bridge whist expert, last June, last night admitted that they were baffled. While they said Harris had shown intimate knowledge with many details of the crime, so many of his statements conflicted with the actual facts in the case that it was almost impossible to believe his story.

Smoot'll Git Ye, If Ye Don't Watch Out

DURING the debates in congress over the appropriation bills for the departments there were a thousand and one outbreaks over the "army of employees." Some were "bitter clashes;" others were amusing.

Senator Smoot of Utah on one occasion attacked an agricultural department item. He said there were now 87,000 employees in Washington, as against 40,000 to 43,000 before the war. Senator Gronna of North Dakota agreed with Senator Smoot in general, but defended the particular bureau, contending that an increase in the force was necessary because it was overworked. Thereupon Senator Smoot said in part:

Mr. Smoot—I am going down to that division of the department, for I should like to see it. I should like to see one department of our government whose clerks are overworked. I do not know but that it would take my breath away to find such a condition. I know that I got a letter the other morning saying that when I entered one of the departments the other day a man who stood at the door immediately telephoned to every division there, "Get to work, and be at your typewriters. Senator Smoot is coming."

Mr. President, I know one division of our government where it is absolutely true that the ladies of the department made their trousseaus in the office during working hours. If the work is to be done in the same way that it is now going on, and there is to be no change, we might just as well make up our minds that we can double the number of employees. Washington is a delightful place to live in. Girls receiving salaries of $1,600 and $1,800, with a $240 bonus, have plenty of time to go to the theater and do fancy work during working hours. Who would want to give it up?

I am glad, however, to hear the senator from North Dakota say that in this division it is different. I think if they are we ought to make special provision for them and give every one of them a chromo.

"Come at once"

HAVE you ever received this message in the middle of the night?

Perhaps it concerned someone dear to you lying ill in the hospital.

Messages like that have a way of arriving in the middle of the night. Grim, urgent, fearsome messages!

But the fact that it is night does not cripple your quick answer to that call.

Instantly, with one movement of your hand, your house is lighted, making great speed possible. On the way to the hospital the streets, with their brilliant lamps, give you encouragement. The world is not so dark a place after all.

The great hospital, itself, is throbbing with activity.

Science, surgeons, nurses no longer wait for daytime to aid them in relieving pain—in saving lives.

The operating room, with its great white lights and the X-ray apparatus, is as busy at two in the morning as at ten.

The marvelous advance in delicate surgery is due in no small degree to the recent application of electricity to the needs of science.

Out of your anxiety on such a night comes a realization of how electricity is helping you and helping that loved one in the hospital.

Behind all this light—what? Every single electric bulb in the country glows against the background of huge dams and water turbines (in the case of water power), or the tremendous boilers, turbines, engines and generators (in steam plants) and against the wires of high-tension transmission lines and the innumerable smaller wires stretching like a web from your very bedside out over the whole country.

And still behind these—what?

A thrilling story of thrift and investment. The story of some 1,450,000 men and women who by their thrift are investing millions of dollars in the electric light and power industry. These investors not only provide for themselves a steady income, but for their fellow citizens a service that today is an absolute necessity to our business and social life.

GRAND JURY INDICTS MILLER

New York, March 8.—Next to the last chapter in the story of Herbert F. Miller's audacious "divorce mill" operations was written yesterday afternoon when the West chester county grand jury returned four separate indictments against him, each charging him with forgery in the second degree.

The final chapter, from the view point of Lee Parsons Davis, District Attorney, who presented the evidence upon which Miller was indicted, will be written when the former suave head of the divorce mill is arrested, convicted and sentenced to not more than 40 years in State's prison.

The indictments were based on four divorce decrees which Miller obtained for his clients and which District Attorney Davis succeeded in convincing the grand jury were complete forgeries. Supreme Court Justice Arthur S. Tompkins, whose name purported to have been signed to each, appeared before the grand jury and testified that "they were clumsy forgeries."

Oil Millionaire Denies Charges in Stokes' Case

New York, April 8.—Edgar T. Wallace, the California oil millionaire, who interrupted his honeymoon to come here and try to clear both his own name and that of Mrs. Helen Elwood Stokes, denied on the witness stand in the divorce trial yesterday that he ever entertained the fashionable young wife of William Earl Dodge Stokes in his bachelor apartments here, as seveal witnesses had said he did.

Wallace said he never loved Mrs. Stokes, never mentioned marriage to her or her mother, and never wanted to marry her, and that the reason why he finally terminated an acquaintanceship with her was that she seemed to expect him to be a regular caller. This, he stipulated, was before Mrs. Stokes was married.

Friends and neighbors had searched all over the city for the boys when the dag appeared and led them to the pond. The Sherk boys were the only sons of Harold H. Sherk, and the Cleckner child was one of three children of Mr. and Mrs. Amos Cleckner.

SPORTS

Dreadnaughts from Saturday on through the season will mean baseball to all the fans of the game. Saturday the Dreadnaughts meet the Washington Red Sox and on Sunday they officially open the season with the boys off the U. S. S. Mayflower. Everybody is talking about being at Baggett's field Sunday to witness this game, and a type of mid season ball is promised. A line up a little different from last season will compose the Dreadnaught team and everything is in readiness for the "Ump" to shout "Play Ball." Alexander or Sullivan are slated to do the tossing and both have showed wonderful form in practice. Giles or Anderson will cover short and snappy playing in this position will be an important feature of the game. Provisions have been made to comfortably accomodate all patrons and the club is ignoring expense and trouble to the end of furnishing exhibitions of baseball that will prove pleasing to everybody who witnesses the game.

2 BOTTLES OF BEER A DAY ARE ALLOWED

Tentative regulations governing the use of beer for medicinal purposes under the ruling of former Attorney Geenral Palmer to the effect that physicians had the right under the law to prescribe beer or wine for their patients, have been drafted by the prohibition enforcement unit of the Treasury Department.

The regulations are virtually the same as those governing the present prescription of spirituous liquids. Beers and wines can be purveyed only by those licensed to purvey them.

A striking feature is the fact that they place a limit upon the quantity of beer and the quantity of wine which may be prescribed in a given period.

The limit with beer is fixed at four and seven-eights gallons a month. This fractional number was obviously reached by determining the aggregate amount of two bottles of beer a day.

Fixing of this limitation is apparently in direct conflict with the Palmer opinion. The Attorney General specifically held that "a regulation therefore which would substitute the judgment of the commissioner and the Secretary of the Treasury for the good faith of the physician by fixing a limit upon the amount which could be prescribed in any given emergency or durng a given period of time, would, in my opinion, be without authority and void."

The proposal limit is two bottles a day, however, which would seem to deny the discretion of physicians in the quantity to be taken.

The limit proposed in the regulations for wine is fixed at three gallons a month.

The regulations are not yet final and have not been approved. It has been stated that they will not be finally passed upon and put into effect until a new commissioner of internal revenue is named.

RICHMOND THEATRE

Some photoplays which entertain us while we are viewing them are quickly forgtten for more serious or more frivolous affairs. Other pictures not only entertain, but give us food for serious and profitable thought. We remember them. We pick out certain parts of the story and turn these over in our minds; and we reach conclusions that help us get more joy out of life. Such a picture is "Blind Wives," produced by William Fox and based on the famous stage play, "My Lady's Dress" by Edward Knoblock at the Richmond Theatre today and tomorrow.

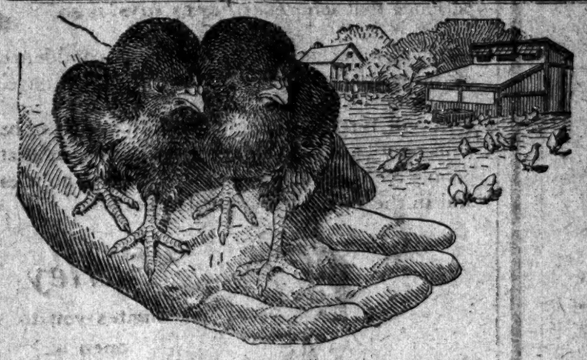
"Blind Wives" is a picture to be recommended unequivocally.

INGOMAR THEATRE

"Clothes" the drama by Avery Hopwood and Channing Pollock, made an interesting and successful play when produced on the stage. Now it is on the screen. And it makes an incomparably better picture.

The screen drama will be seen tonight at the Ingomar Theatre, with an all star cast, including Olive Tell, Crauford Kent, Cyril Chadwick, Frank Currier, Zeffie Tillbury, Rae Allen and Mary Beaton. It is a Metro production.

If you want quick results, try a classified ad in the Gazette, it will sure bring you the right thing.



Purina Chows Save Baby Chicks

DON'T try to raise those tender chicks on grains, stale bread, meal and such grain products, any more than you'd feed a baby cornbread. Such rations, being deficient in protein and minerals, result in bowel trouble, slow feathering and scrawny development.

Chicks Saved Pay Feed Bill

Suppose Purina Chows saved just two more chicks out of every dozen hatched. That alone would pay your feed bill. But Purina Chows do more than just save chicks.

Double Development Guaranteed

Got Skin Disease?
Purify Your Blood

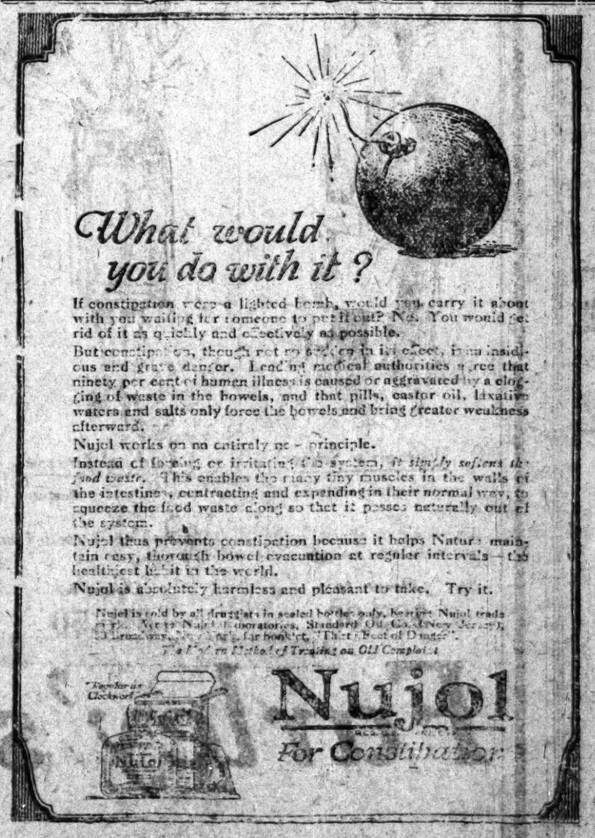
A great part of the maddening and mortifying skin troubles that plague humanity are due solely to disorders of the blood. Relief from these can be had only by removing from your blood stream the impurities that cause the itching.

For this you must take an internal blood remedy. Outside applications have no effect on the cause of the torture. Their relief is shortlived. You must get right after the blood itself.

S.S.S., the famous old herb remedy, has helped enrich the blood of thousands, and relieved their itching skin torture, during the last fifty years.

Get S.S.S. from your druggist today, and after starting with it write us a history of your case, addressing Chief Medical Advisor, 837 Swift Laboratory, Atlanta, Georgia.

USED 50 YEARS S.S.S. FOR SKIN TROUBLES AT ALL DRUGGISTS



What would you do with it?
If constipation were a lighted bomb, would you carry it about with you waiting for someone to put it out? No. You would get rid of it as quickly and effectively as possible.
But constipation, though not so sudden in its effect, is insidious and grave danger. Leading medical authorities agree that ninety per cent of human illness is caused or aggravated by a clogging of waste in the bowels, and that pills, castor oil, laxative waters and salts only force the bowels and bring greater weakness afterward.
Nujol works on an entirely new principle.
Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.
Nujol thus prevents constipation because it helps Nature maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.
Nujol is absolutely harmless and pleasant to take. Try it.
Nujol is sold by all druggists in sealed bottles only. Beware of imitations. Get the genuine Nujol made only by Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York. Ask for booklet, "The Best of Digestion."

BULLET OUT, BRAIN CLEARS

Sing Sing Prisoner Regaining Strength With Rational Mind

Ossining, N. Y., April 8.—Roman Leondowski, the Sing Sing prisoner from whose brain a bullet was removed by a surgical operation ten days ago to cure him of attacks of insanity, was able to leave the hospital cot today for the first time.

"Everything, he says is rational," said Dr. Amos O. Squire, head physician, in explaining that Leondowski had been sane at all times since the operation by Dr. William L. Chapman of 552 Lincoln Place, Brooklyn.

Leondowski is eating solid food, is in excellent spirits and is confident that he has been cured. Dr. Squire said that he believed Leondowski would stay in Sing Sing another month. As he is a charge of the Dannemora State Hospital, he will have to be returned there to be formally declared sane again. His time has expired.

Plymouth Rock is Moved Second Time in Four Months

Plymouth, Mass., April 8.—For the second time within four months Plymouth Rock was moved yesterday. On December 21, after the canopy over the rock was torn down the boulder was moved about fifty feet. Three guards have watched over it night and day since. To do away with these guards the rock was again moved yesterday and placed on a brick building at the corner of North and Water Streets.

The windows have been barred and the door securely locked.

Dry Boom For White House In 1924 Doesn't Excite Miller

Albany, April 8.—Governor Miller was told yesterday afternoon that at a recent meeting in Washington some persons favoring "dry" legislation had started a Presidential boom for him.

"They commended you very highly for your stand on prohibition enforcement and several speakers predicted that four years from now you would be in the White House," the Governor was informed.

Governor Miller smiled.

"I am not bothering my head about the White House or any suggestions of that sort," he said.

"It is interesting, though," said the informant.

"A great many people have gone to the White House, you know, in the same way these gentlemen are predicting," Governor Miller said. "That is as near as I ever expect to get."

TROLLEY HEAD A SUICIDE

W. P. Bristol Writes Note to Wife and Shoots Himself in Hartford

Hartford, Conn., April 8.—Leaving a note to his wife, Warren P. Bristol, manager of the Hartford Division of the Connecticut Trolley Company, committed suicide in Keney Park yesterday by shooting himself through the right temple.

"I did very little bad in borrowing money," said the note, scribbled hurriedly in pencil. Mr. Bristol added that he was despondent over money matters, and gave directions concerning some insurance policies.

It is generally understood that Mr. Bristol feared heavy losses on insurance stocks which had depreciated during the war, and that he had gone deeply into debt in his efforts to prevent such losses.
